Subject: SB16 Please Read

Dear Co-Chair Winfield, Co-Chair Stafstrom, Vice Chair Flexer, Vice Chair Blumenthal, Ranking Member Kissel, Ranking Member Fishbein, and all members of the Judiciary Committee:

I am against SB 16. Where should I start??

Banning "ghost guns" wasn't enough for you? Now you want us to register any of these firearms that we legally made and were grandfathered in? Why? Once again you are focusing your energies in the wrong direction. Now add to that you want to ban .22 caliber guns if they have certain scary features. Do you really think those features make any gun, never mind the diminutive .22, any deadlier? How many criminals are committing violent crime with these? None!!!

Since when do people in the ghetto use long guns?? Nobody in the hood has illegal long guns, all pistols. Only an idiot would want to ban guns based on irrelevant features. Every person with an iq above 1 knows guns enter from states where its easy to purchase then sold states away. Watch a documentary. Restricting my purchases, infringing my rights will not stop some drug dealer from buying a handgun! Please use some common sense and shoot down this idiotic law.

I didnt work so hard at being a good citizen to only be allowed to buy handguns! I enjoy long guns for the range and they are fun. Maybe you should try!

Also let it be known pistol braces were created so disabled people can easily and safely fire their weapons. Do you want ct to have a lawsuit for violating the americans with disability act? Do we want CT known for not being accomodating to people who have disabilities from excercising their 2nd amendment rights?

The bottomn line what you all really care about is money. The loss the state would incur on taxes is astronomical! As well as job losses for people in the industry. Do the right thing.

Thanks,

Neftaly
